allCIRC™ Vault

An **add-on** to your existing patron self-checkout system to provide secure CD/DVD media dispensing

Upgrade your ***existing*** patron self-checkout systems to securely dispense CD/DVD media. **allCIRC-Vault™** works in conjunction with your current machines to eliminate any patron training issues. Patrons still use the machines that you already have with the added capability of **allCIRC-Vault™**

One of the key universal "problems" that faces libraries of today is the need to somehow secure their media collections (CD/DVD/BluRay/HD/Games), which is by far the fastest growing circulation segment of virtually every library. In addition, the need to provide self-service options to patrons is paramount to any library that wants to continue to attract patrons, while controlling costs. Needless to say, library budgets are rapidly shrinking, it's now "do more with less" every year.

allCIRC-Vault™ allows you to address this problem without changing your existing self checkout solution.

Same patron interface*!*

Since **allCIRC-Vault™** utilizes a unique LAT's proprietary software technology, there is no change to patrons interface or receipt printing at all - patron acceptance is high, because they've been using it all along.

Easy Implementation*!*

Because of the unique **allCIRC-Vault™** technology, there is no effect on your existing infrastructure. No additional software license or changes are required to implement **allCIRC-Vault™** today.

Upgrade Anytime*!*

Due to **allCIRC-Vault™** modularity, you can upgrade **allCIRC-Vault™** at any time.

Secure Media Dispensing Add-On

- Patrons continue to use your existing self-checks.
- Integrates seamlessly into your Library
- Requires no additional SIP licenses
- No change to existing self-checks is needed
- LAT-Central™ Enterprise Management Software is included.
- Special staff-mode for loading
- Upgrade anytime
- No patron training required
- Portable, wireless -move anywhere.
- 600+ color combos

allCIRC.com

Bottom Line:

*You can't steal the DVDs because they are inside the **vault**. Patrons select from empty cases to retrieve and check them out from allCIRC™ . All transactions are controlled by the ILS.*

allCIRC™ Vault

How it Works...

1. Scan Library Card
   (on your existing self-check)
2. Scan Books
   (on your existing self-check)
3. ••• etc.
4. Scan CD, DVD ...
   (on your existing self-check)
5. allCIRC-Vault™ dispenses the item
   (assuming if ILS allows)
6. Scan another CD, DVD ...
   (on your existing self-check)
7. allCIRC-Vault™ dispenses the item
   (assuming if ILS allows)
8. ••• etc.
9. Get a Receipt

I can now use this technology with my existing checkout systems that we are used to. Great Idea !!
